Organization Chart

Our Vision

We're committed to transforming the Shipping Industry by developing up-to-date market data with new tools while staying fair to our values.

To be MENA & Black Sea's preferred provider of shipping and customized logistics solutions.

To achieve best business practices through constant innovation and technology.

To maintain a strong performance-based organization with a competent and motivated workforce

To provide complete logistics solutions that are not only efficient but also reliable & affordable.

To gain the confidence & trust of our valued clients by conducting business with complete honesty and integrity.

Our Mission

Agile Shipping & Logistics Solutions develops and delivers custom-fit transport solutions for your logistical challenges, both with regard to dry bulk and project cargo shipments.

Our dedicated team feels passionate about providing you with a pleasant and hassle-free service experience and enjoys the challenge to find the most economic transport solution that matches your commercial and technical requirements.

We take pride in providing reliable yet flexible services and invite you to learn more about Agile, we are pleased to deliver a performance you can trust.

Our operations team will assist clients with vessel logistics and documentation from the initial vessel charter until the cargo has been discharged and the file closed.

Let our team of professional brokers and staff manage your unique shipping needs. Give us a call or email our local office to learn more.

Agile has a wide network of ship owners and brokers with different classes that helps to close the best deals for the interest of our clients, we can fix proper candidate for any type of cargo all over the world.

Surveyor Arrangements

Agile has working relationships with reputable surveyors in Egypt in all commodities by arranging all types of surveys, including but not limited to Cargo/Draft/Bunker/ On-hire/ off-hire/Condition surveys.

Breakbulk & Bulk Cargo Customized Business solutions

Agile can prepare pre-stowage plan and calculate the cargo dimensions from different packing lists to get accurate quotes for our clients.

Stowage plan & Cargo Dimensions Calculations

Agile helps its clients to prepare Feasibility studies on breakbulk and Bulk cargo modules versus normal shipping modules.

Stevedore Arrangements

Agile has extended experience handling all commodities in Egyptian ports. Upon our customer's request, we are able to select the most efficient stevedore company to ensure the fastest vessel dispatch. We attend all loading/discharging planning meetings, and we monitor all operations through our dedicated vessel representatives

Service Scope

ICDs Solutions

ICDs facilitate efficient movement of containers and goods between seaports and inland locations. They provide handling, storage, and inland transportation of shipping containers. Located strategically inland with advanced infrastructure, ICDs offer value-added services to improve supply chain efficiency and reduce costs.

Shuttle Trucks

Shuttle trucks provide reliable, efficient and affordable goods movement between locations. They enhance supply chain agility and responsiveness, allowing businesses to quickly transport goods, meet deadlines, and respond flexibly to changes. This improves customer service, operational efficiency, and reduces inventory costs. Shuttle trucks offer a cost-effective transportation solution for logistics needs.

Warehousing

Warehousing services are essential for Supply chain management, providing businesses with secure storage, inventory management, and distribution services. Warehouses offer advanced inventory management systems and value-added services such as packaging and assembly services. Additionally, warehouses have security and safety measures such as 24/7 surveillance and climate-controlled storage facilities. Utilizing warehousing services can help businesses improve efficiency, reduce costs, and provide customers with a reliable service.

Physical Distribution

Physical distribution services are essential for modern supply chains, ensuring that goods are transported quickly and efficiently from manufacturers to consumers. As businesses expand globally and e-commerce grows, the importance of physical distribution services is increasing.

Service Scope

Cross-border Transportation

International trucking delivers a winning combination of affordability, flexibility, reliability and ease of use. It is transforming global supply chains by making interregional trade and transportation faster, cheaper & smarter. International trucking services play a pivotal role in facilitating borderless business, fostering economic growth and enabling prosperity worldwide.

Projects Logistics

Projects Logistics services play a vital and indispensable role in ensuring the timely and successful completion of complex projects. They encompass the transportation of oversized, heavy or specialized equipment and materials to remote project locations as well as the comprehensive management of logistics operations backed up by high level of expertise and specialized equipment throughout the project lifecycle.

Heavy Lifting Equipment

Heavy Lifting Equipment services play a critical role in various industries, such as construction, mining, and manufacturing. These services offer indispensable equipment and expertise to handle large and heavy objects with utmost safety and efficiency. From hoisting bulky loads to towering heights to transporting heavy machinery across expansive factory floors, heavy lifting equipment services are indispensable for the smooth operation of Numerous businesses.

Why Agile ?

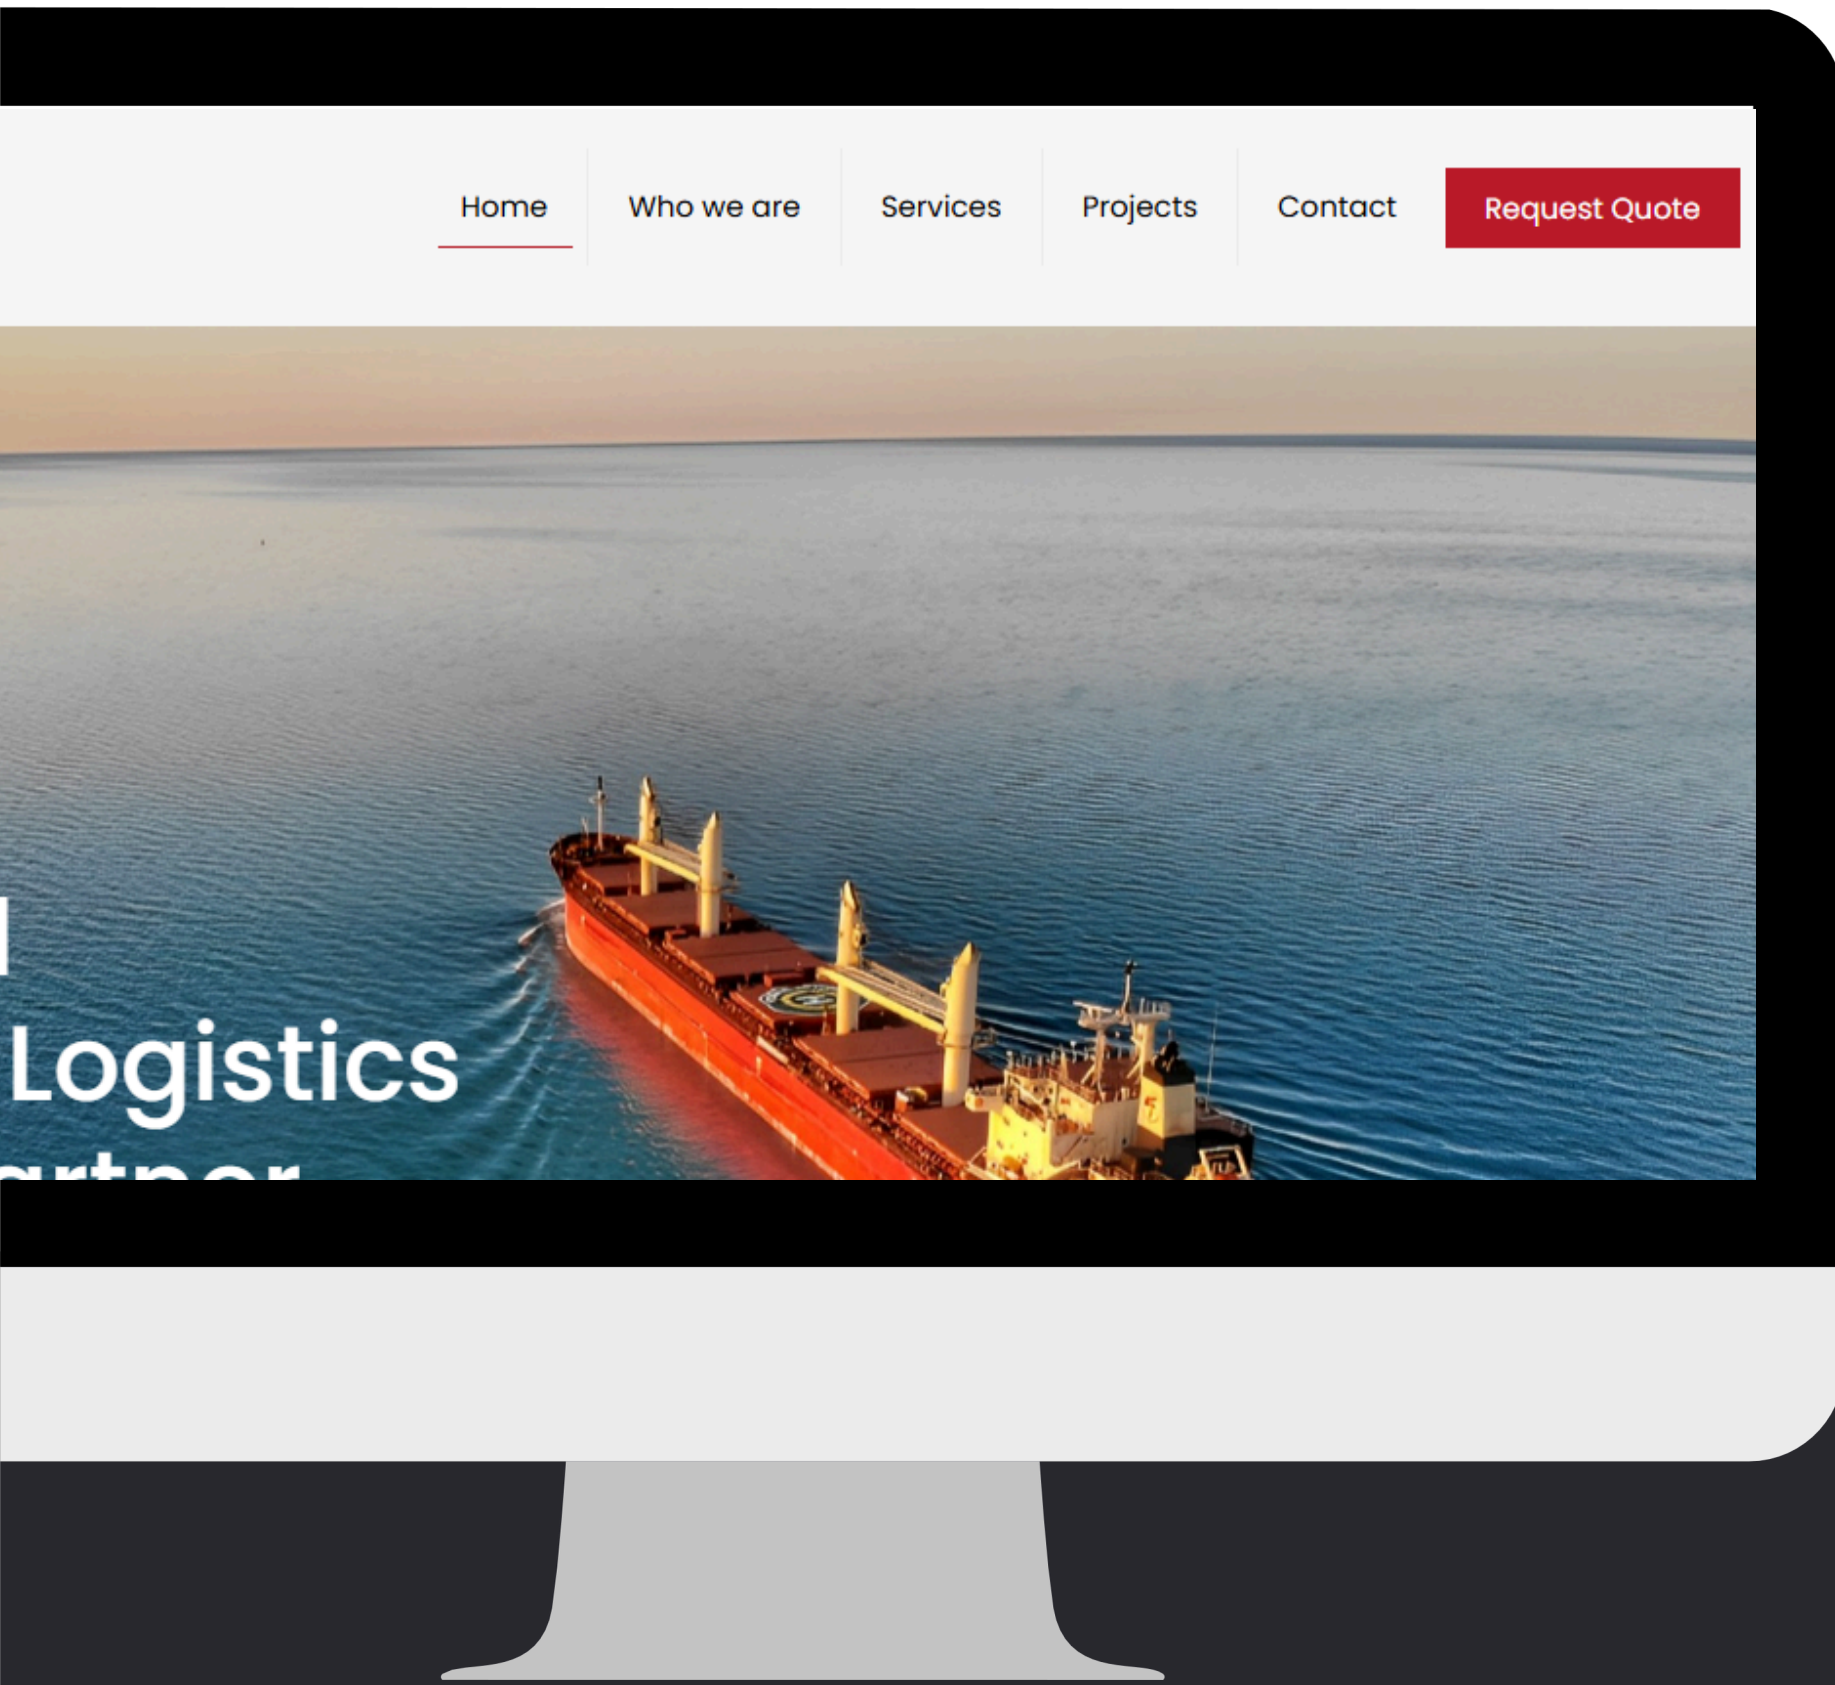

At Agile, we are committed to staying up-to-date with the latest technical knowledge and maintaining a vast professional network of highly experienced vessel owners, brokers, and agents both in Egypt and worldwide. This enables us to provide our clients with comprehensive planning, execution, and consultation services for various logistical operations.

We take into account all possible obstacles and challenges, whether they are economic or operational, to ensure that our clients' needs are met efficiently and effectively.

Our team of experts is dedicated to delivering top-quality services and ensuring that our clients' expectations are not only met but exceeded.

Agile is proud to partner & serve with a large portfolio of clients including:
